Ref. App. No. 10/777,671

Dear Examiner Tran:

I recently checked the USPTO website to see if you had received the changes and additions we discussed, but they had not been added to my application.

I called and left you a message to contact me but had not heard back from you. I know you are very busy, so I am re-faxing and re-mailing all of the material along with the re-amended material to the fax number and/or address you supplied, just in case you did not receive it earlier.

All of the included material in this fax must be rescanned by the USPTO prior to your initial examination, as many sections of the material, per our discussion, may have been modified accordingly.

I hope the following changes will meet with your approval, and be in accordance with the standards as prescribed by the USPTO.

Please feel free to contact us if any unforeseeable problems occur during your receiving (by fax) the material enclosed or the re-examination of my application for a patent.

I am also going to forward you a copy of the enclosed material by mail.

Sincerely,

John Endicott
